

Jive Catalyst Module

Jump-Start Your Jive Community Development

Accelerate your Jive-n and Jive-x community deployment and drive adoption with powerful, pre-built widgets that surface community content and information. The Jive Catalyst module packages the most frequently-requested widgets developed by our Professional Services team in hundreds of successful Jive deployments. From finding people or places to following tags and highlighting active participants and blogs, the Catalyst module provides critical functionality to make your users better informed, more engaged and more productive.

The Right Information in the Right Place

Ideal for both internal and external communities, the Catalyst module provides out-of-the box functionality that lets you:

- Create a community lobby – organize content around topics and titles for quick browsing and selection
- Highlight active participants – show who's currently online without having to rely on external systems
- Summarize key blogs – display excerpts of select blogs
- Show the current user profile – encourage users to complete their profiles and get swift access to content they created
- Improve navigation – display the most frequently used actions, locations and content
- Provide focused search – delimit search results to people or places

Enhanced Navigation Bar ⌵

Take me to:

-  [Getting Started](#)
-  [Water Cooler](#)
-  [ISF Members](#)

I want to:

-  [Update my Profile](#)
-  [Start a discussion](#)
-  [Write a document](#)
-  [Customize Home Page](#)

My Colleagues

My Groups

My Group

Client Demo Group

Colleagues I May Know

- Showcase community members – to highlight important members in your community

These and other capabilities ensure that the right people get the right information at the right time, driving overall adoption and business value. All widgets are easy to configure and require no customization, making your Jive deployment simple to manage, maintain and upgrade.

Compatibility

This module is compatible with the following Jive products and versions:

- Jive-n Custom version 4.5.x and above
- Jive-x Custom version 4.5.x and above

Licensing

This module is a paid option. Please contact your Jive account representative for more information or email us at sales@jivesoftware.com. In addition, you can find information and discussions about this module in our community at community.jivesoftware.com.
